Professional summary

I am a CompTIA Security+ certified professional with a strong foundation in cybersecurity, software development, and business operations. I've supported international clients through customer advisory roles focused on service delivery, renewals, documentation, and issue resolution, gaining strong analytical and communication skills.

Technically, I'm proficient in Java, SQL, Git, GitHub, GitLab, Python, Linux, Docker and full stack tools including JavaScript, React, Node.js, Express.js and MongoDB. I also bring experience with Agile development, REST APIs, and version control platforms, enabling me to contribute to enablement, documentation, and system optimization.

This blend of technical expertise and customer-facing experience allows me to add value in both collaborative and fast-paced environments.

EDUCATION

WeThinkCode_ || NQF 6 Higher National Diploma|| Computer Software Engineering

Block 1 || Programming Fundamentals || Object Oriented Programming

- Python Programming / Git / GitLab / OAuth / Google OAuth API
- HTTP REST API / JSON / File Handling / Linux / Version Control

- Automated Testing / Persistence / Code Analysis
- HTML / CSS / JavaScript / Docker / SQL
- Agile / Building pipelines

HyperionDev Full Stack Web Developer Bootcamp

- Bootstrap / Asynchronous Programming / JavaScript / SQL
- Object-Oriented Programming / DOM Manipulation and Data Structures
- MongoDB / MySQL / Express.js / Node.js / React / Redux

Acts House of Education – Matric 2020

Certifications

1. CompTIA Security + Certification

https://www.credly.com/badges/8fdb0b91-9084-42e4-a7e0-ee07fc120fcf/public_url

Earners of the CompTIA Security+ certification have the knowledge and skills necessary to perform core security functions required of any cybersecurity role. CompTIA Security+ professionals know how

to identify and address potential threats, attacks and vulnerabilities and they have established techniques in risk management, risk mitigation, threat management and intrusion detection. Management.

PROFESSIONAL EXPERIENCE

Tautswako Exquisite Cocktails

Centurion, South Africa | January 2024 – June 2024

Developed a sleek, responsive website for a mobile cocktail service specializing in premium cocktails and events.

- Designed and implemented the frontend UI using React for seamless user experience across service details, cocktail menus, and quote requests.
- Ensured the website was mobile-friendly, optimizing performance and accessibility.
- Collaborated with the client to understand their vision and user needs, delivering an intuitive and visually appealing site.

OUTsurance (OSS) | Customer Service Advisor

Remote (UK – based) | August 2022 – July 2024

Provided outstanding customer service for Hastings Direct, a UK-based insurance broker.

- Assisted customers with inquiries, policy renewals, claims processing, and general support
- Delivered high-quality service in a fast-paced environment, resolving issues efficiently and accurately.
- Maintained a strong understanding of insurance products and services to provide informed advice to customers.

OUTsurance (OSS) | Renewals Advisor

Remote (UK – based) | April 2021 – July 2022

Managed insurance renewals for Hastings Direct, ensuring smooth transitions and customer retention.

- Handled renewal negotiations, offering tailored solutions to meet customer needs.
- Delivered clear communication on policy changes, price adjustments, and terms.
- Worked closely with clients to understand their requirements and provided excellent service to retain business.

Lakefield Pharmacy | Administration Assistant

Benoni, Boksburg, South Africa | December 2020 - January 2021

Supported daily administrative operations with a focus on invoicing, stock management, and filing.

- Processed and verified incoming invoices, ensuring accuracy and timely organization.
- Managed inventory records, tracking stock coming in and going out to maintain proper stock levels.
- Performed general administrative tasks such as filing, document preparation, and data entry.

SKILLS
